

# Choose the Stronger Argument

Workbook 1 - Learn

## Directions

Build the skill in small pieces. Keep every answer source-based.

### Exercise 1

A source gives before-and-after results for the policy being debated.

**Task:** What strength does this create?

### Exercise 2

A source predicts a future cost increase but gives no budget estimate.

**Task:** What weakness is present?

### Exercise 3

A source admits the pilot covered only two locations.

**Task:** Does this automatically make it weak?

### Exercise 4

Two sources disagree. One uses an actual pilot; the other uses one anecdote.

**Task:** What should you compare?

# Answer reasoning

Compare your reasoning, not just your wording.

## Exercise 1

**Reasoning target:** Direct relevance to the claimed outcome.

## Exercise 2

**Reasoning target:** Unsupported prediction or insufficient evidence.

## Exercise 3

**Reasoning target:** No. The limitation can make the reasoning more accurate if the recommendation stays limited.

## Exercise 4

**Reasoning target:** Scope and relevance of evidence, not simply which source has numbers.

## Mistake check

If you missed an item, label the cause: task misunderstanding, source drift, weak evidence match, summary without analysis, organization, or sentence clarity. Then redo the item in one precise sentence.
