

Full Extended Response

Workbook 2 - Apply

Directions

Apply the skill with less support. Explain the reasoning, not only the final answer.

Exercise 1

Plan a 45-minute response with time blocks.

Task: Protect revision time.

Exercise 2

Write an untimed full response, then highlight thesis/evidence/analysis/comparison.

Task: Audit the reasoning.

Exercise 3

Give yourself provisional 0/1/2 trait scores.

Task: Keep them separate from objective accuracy.

Exercise 4

Revise the same response once after model comparison.

Task: Use the model diagnostically, not as a replacement.

Answer reasoning

Compare your reasoning, not just your wording.

Exercise 1

Reasoning target: Use roughly 8 min reading, 4 min planning, 25 min drafting, 8 min revising.

Exercise 2

Reasoning target: Any large unhighlighted section may be summary, filler, or a missing function.

Exercise 3

Reasoning target: Each score should cite visible evidence in your own response.

Exercise 4

Reasoning target: Choose one reasoning improvement and one clarity/editing improvement to apply.

Mistake check

If you missed an item, label the cause: task misunderstanding, source drift, weak evidence match, summary without analysis, organization, or sentence clarity. Then redo the item in one precise sentence.
