

Text structure - Workbook 3

Focused practice - Workbook 3 of 3

How to use this workbook

Read each text closely. Decide what relationship the question is testing before looking at the options. After checking the key, explain why the strongest wrong answer fails.

Before you start

- Use the surrounding text, not one isolated keyword.
- Prefer precise relationship words such as illustrates, qualifies, contrasts, supports, or results in.
- Do not accept an answer that merely summarizes when the question asks about function or effect.

Community Archive

The archive sorts donations into photographs, letters, maps, and audio recordings. Each category has different storage requirements, and the guide explains those requirements in separate sections.

1. Which text structure best describes this passage?

- A. classification / description
- B. cause / effect
- C. compare / contrast
- D. problem / solution

2. How does that structure help develop the passage?

- A. It hides the relationship among the main ideas.
- B. Organizing by category helps readers find the storage guidance for each type of material.
- C. It arranges details without helping readers understand how they connect.
- D. It mainly creates suspense rather than explaining the topic.

Battery Recycling

Residents often threw small batteries into household trash because drop-off sites were far away. The council installed collection boxes in libraries and grocery stores, then tracked participation for six months. Collection volume doubled.

3. Which text structure best describes this passage?

- A. compare / contrast
- B. sequence / process
- C. problem / solution
- D. classification / description

4. How does that structure help develop the passage?

- A. It hides the relationship among the main ideas.
- B. It arranges details without helping readers understand how they connect.
- C. It mainly creates suspense rather than explaining the topic.
- D. The structure connects an access problem with the response and the evidence that participation improved.

Open Office Trial

A company article first describes why the office removed several cubicle walls. It then reports lower construction costs but also more complaints about noise. The final section describes acoustic panels and reservable quiet rooms added during the trial.

5. Which text structure best describes this passage?

- A. cause / effect plus problem / solution
- B. compare / contrast
- C. sequence / process
- D. classification / description

6. How does that structure help develop the passage?

- A. It hides the relationship among the main ideas.
- B. The organization shows both consequences of the change and the later responses to an unintended problem.
- C. It arranges details without helping readers understand how they connect.
- D. It mainly creates suspense rather than explaining the topic.

Answer key and reasoning

1. A. The ideas are organized as classification / description.
2. B. Organizing by category helps readers find the storage guidance for each type of material.
3. C. The ideas are organized as problem / solution.
4. D. The structure connects an access problem with the response and the evidence that participation improved.
5. A. The ideas are organized as cause / effect plus problem / solution.
6. B. The organization shows both consequences of the change and the later responses to an unintended problem.

Mistake review

- If you summarized instead of explaining a relationship, label it summary-not-function.
- If you chose a transition or structure because of one keyword, label it one-clue trap.
- If you confused a quoted perspective with the author's own view, label it viewpoint source.
- If you named a rhetorical device but missed what it achieves, label it effect missed.
- Redo missed questions later without looking at the key.
