

Meaning in Context - Workbook 3

Focused practice - Workbook 3 of 3

How to use this workbook

Read each short text closely. Answer without checking the key.

Then compare your reasoning with the explanation and mark the mistake type if you were wrong.

Before you start

- Underline or mentally mark the exact wording that controls your answer.
- Do not choose an option just because it is true in general; it must fit this text.
- After checking, write one sentence explaining why the strongest wrong answer fails.

Mistake review

- If you chose a familiar meaning that did not fit the context, label it wrong sense.
- If you chose an option based on one word but ignored the rest of the passage, label it one-clue trap.
- If you understood the basic meaning but missed attitude or effect, label it effect missed.
- Redo the question later without looking at the key.
