

Transitions & signal words - Workbook 2

Focused practice - Workbook 2 of 3

How to use this workbook

Read each text closely. Decide what relationship the question is testing before looking at the options. After checking the key, explain why the strongest wrong answer fails.

Before you start

- Use the surrounding text, not one isolated keyword.
- Prefer precise relationship words such as illustrates, qualifies, contrasts, supports, or results in.
- Do not accept an answer that merely summarizes when the question asks about function or effect.

Community Classes

The center added a Saturday computer class because weekday sessions were full. more working adults were able to attend.

1. Which transition best connects these ideas? "The center added a Saturday computer class because weekday sessions were full. _____, more working adults were able to attend."

- A. As a result
- B. However
- C. For example
- D. In addition

2. What relationship should the transition signal?

- A. simple addition with no contrast or cause
- B. result
- C. an example of the first idea
- D. a chronological step with no logical relationship

Repair Cafe

Volunteers can repair many lamps, fans, and small appliances. items requiring specialized replacement parts may need to be taken elsewhere.

3. Which transition best connects these ideas? "Volunteers can repair many lamps, fans, and small appliances. ____, items requiring specialized replacement parts may need to be taken elsewhere."

- A. However
- B. As a result
- C. Nevertheless
- D. For example

4. What relationship should the transition signal?

- A. simple addition with no contrast or cause
- B. an example of the first idea
- C. a chronological step with no logical relationship
- D. contrast / limitation

Wetland Boardwalk

The old trail crossed muddy ground and became difficult to use after rain. the new raised boardwalk keeps visitors above the wettest area.

5. Which transition best connects these ideas? "The old trail crossed muddy ground and became difficult to use after rain. _____, the new raised boardwalk keeps visitors above the wettest area."

- A. Now
- B. However
- C. As a result
- D. For example

6. What relationship should the transition signal?

- A. simple addition with no contrast or cause
- B. solution / result
- C. an example of the first idea
- D. a chronological step with no logical relationship

Answer key and reasoning

1. A. The increased attendance follows from adding the Saturday option.
2. B. The increased attendance follows from adding the Saturday option.
3. C. The second idea limits the range of items volunteers can handle.
4. D. The second idea limits the range of items volunteers can handle.
5. A. The second sentence describes the changed condition after the new boardwalk was installed.
6. B. The second sentence describes the changed condition after the new boardwalk was installed.

Mistake review

- If you summarized instead of explaining a relationship, label it summary-not-function.
- If you chose a transition or structure because of one keyword, label it one-clue trap.
- If you confused a quoted perspective with the author's own view, label it viewpoint source.
- If you named a rhetorical device but missed what it achieves, label it effect missed.
- Redo missed questions later without looking at the key.
